There are a number of further examples where **K^r** is alone against the world, showing its independence, but I ‘grew weary in well doing’, deciding I had included enough to make the point. Note that N-A²⁷ mentions only a third of these examples from Luke—to be despised is to be ignored. This added evidence confirms that **K^r** is independent of **K^x** and both are ancient, only now they both must date to the III century, at least.

It will be observed that I have furnished examples from the Gospels (Luke, John), Acts, Paul (Romans, 2 Corinthians), and the General Epistles (James, 1 Peter, 2 Peter, 3 John), with emphasis on Luke, Acts and James.¹ Throughout the New Testament **K^r** is independent and ancient. Dating to the III century, it is just as old as any other text-type. Therefore, **it should be treated with the respect that it deserves!!**

I have cited Maurice Robinson twice and shown that the evidence vindicates his claims. Both **K^r** and **K^x** date to the beginning of the velum era. But he makes a further claim that is even bolder:

Nor do the uncials or minuscules show any indication of any known line deriving from a parallel known line. The 10 or so “texttype” lines of transmission remain independent and must necessarily extend back to a point long before their separate stabilizations occurred—a point which seems buried (as Colwell and Scrivener suggested) deep within the second century.²

Well, well, well, we are getting pretty close to the Autographs! Objective evidence from the II century is a little hard to come by. For all that, the examples above taken from Acts 21:8, Acts 23:20, Romans 5:1, Luke

¹ I also have a page or more of examples from Revelation that confirm that **K^r** (**M^c**) is independent and III century in that book as well.
