

MSS 824, 1040, 1249, 1637 and 1858 have four, to be discussed in that order. MS 824: 2:5—του || --- (group 1) 824. The group omits the article before “God”, but the case being genitive the meaning is not touched. 11:17—αγριελαιος || αγριελεος 824. This appears to be an itacism resulting in an alternate spelling. 15:14—αλλους || αλληλους [7%] 824. ‘Admonish one another’ perhaps seemed more natural than ‘admonish others’, but the difference in meaning is slight. 16:24—ημων || υμων [82%] (group 1)+ 824. MS 824 is part of group 1. This is a change that dominated the general transmission and would be made almost automatically if the copyist did not notice that Tertius is speaking; it makes little difference in the context.

MS 1040: 11:17—πισοτηος || ποιιοτηος 1040, 1072^c, 1548. This appears to be a careless spelling mistake, since the result is not a word. In the context a reader would make the necessary correction. 15:2—ημων || υμων [22%] 1040. That this was a ‘natural’ alteration is seen by the 22%, but in the context it makes little difference. 15:7—ημας || υμας [38%] 757^c, 1040. That this also was a ‘natural’ alteration is seen by the 38%, but in the context it makes little difference. 16:24—ημων || υμων [82%] (group 1)+ 1040. MS 1040 is part of group 1. This is a change that dominated the general transmission and would be made almost automatically if the copyist did not notice that Tertius is speaking; it makes little difference in the context.

MS 1249: 2:14—ποιη || ποιει 1249. Although this was probably an itacism, it changes the mood, but the meaning is not affected. 9:12—τω || το 1249. This looks like another itacism, but it mistakenly changes the case. A reader would make the necessary correction, and since the two forms are pronounced the same, a listener would understand correctly. 9:20—το || τω 1249, 1876. This looks like a reverse itacism; see the comment above. 16:19—ειναι 1249^c || --- 201, 394, 928, 1249, 1856. All but 201 belong to group 2. The verb must be understood in any case, so the meaning is not affected, but the variant was corrected.

MS 1637: 2:5—του || --- (group 1) 1637. The group omits the article before “God”, but the case being genitive the meaning is not touched. 15:20—δε || --- 1637. This appears to be a careless omission that does not affect the meaning. 16:2—και || 11 1637. This is a careless mistake; the word is repeated from one line to the next. A reader would automatically correct it. 16:24—ημων || υμων [82%] (group 1)+ 1637. MS 1637 is part of group 1. This is a change that dominated the general transmission and would be made almost automatically if the copyist did not notice that Tertius is speaking; it makes little difference in the context.
