

1. Mt. 11:8 βασιλειων || βασιλεων (36.4%)¹ 2554^c [the first hand clearly had the *iota*, that was subsequently erased, so this is not a variant; in any case, within the context the two forms are synonymous]
2. Mt. 13:15 ιασωμαι || ιασομαι [50%] 2554^c [traces of the erased right side of the omega remain, so the first hand was correct, so this is not a variant; in any case, within the context the change in tense does not affect the meaning]
3. Mt. 25:32 συναχθησονται || συναχθησεται [70%] [I include this case only because, of the 51 family representatives I have collated for Matthew so far, a slight majority have the singular rather than the plural (27/24); because of the quality of the minority, including 2554, I have chosen it as the archetype; in any case, whether the mass noun is viewed as singular or plural, the meaning remains the same—they are two ways of saying the same thing]
4. Mt. 26:29 γεννηματος || γεννηματος [70%] 2554^c [the extra *nu* was added above the line, but the first hand was correct, so this is not a variant; in any case, within the context the two forms are synonymous]

Comment: I consider that the first hand gives us a perfect copy of the archetype for Matthew.

5. Mk. 2:23 ποιειν 2554^c || πειν 2554 [it looks like 2554's exemplar had πειν, and the copyist duly copied it, but then realized that it was a nonsensical mistake and corrected it; if the correction was made by the first hand, then we do not have a proper variant, but working from a microfilm it is difficult to tell if the ink is the same]
6. Mk. 5:41 κουμι || κουμ (17.4%) 2554 [this is a transliteration from another language, so a spelling difference does not affect the meaning, the more so since it is followed immediately with the translation; I do not consider this to be a proper variant]
7. Mk. 14:25 γεννηματος || γεννηματος [25%] 2554^c [the extra *nu* was added above the line, but the first hand was correct, so this is not a variant; in any case, within the context the two forms are synonymous]
8. Mk. 15:46 επι την θυραν || 1 τη θυρα [1%] 2554 [about a fourth of the family representatives join 2554 here; the preposition works with

¹ Percentages within parentheses are taken from *Text und Textwert*, while those within brackets are my own extrapolation.
