

three cases—genitive, dative, accusative—within this context the change in case does not affect the meaning]

Comment: I consider that the first hand has only one proper variant in Mark, the last one, and it does not affect the meaning.

9. Lk. 1:36 *συγγενης* || *συγγενις* [10%] 2554 [instead of the adjective functioning as a generic noun, 2554 uses the feminine noun; within the context the two forms are synonymous]
10. Lk. 1:55 *εως αιωνος* || *εις τον αιωνα* [64%] 2554 [the variant is by far the more common, and therefore expected, but within the context the two forms are virtually synonymous; any difference in nuance does not alter the basic meaning]
11. Lk. 3:1 *αβιληνης* || *αβιλινης* 2554 [perhaps an itacism that resulted in an alternate spelling for the place name; the two forms would receive the same pronunciation; I do not consider this to be a proper variant]
12. Lk. 3:18 *τω λαω* || *τον λαον* [85%] 2554 [since the direct object, ‘good news’, is implicit in the verb, ‘the people’ functions as the indirect object, and the dative case is correct; however, the accusative case does occur, and within the context there is no difference in meaning]
13. Lk. 12:18 *γεννηματα* || *γεννηματα* [7%] 2554^c [the extra *nu* was added above the line, but the first hand was correct, so this is not a variant; in any case, within the context the two forms are synonymous]
14. Lk. 21:33 *παρελευσεται* || *παρελευσονται* [68%] 2554 [whether the compound subject of the verb is viewed as singular or plural, the meaning is the same; in English the translation is the same]
15. Lk. 22:18 *γεννηματος* || *γεννηματος* [15%] 2554^c [the extra *nu* was added above the line, but the first hand was correct, so this is not a variant; in any case, within the context the two forms are synonymous]

Comment: I consider that the first hand has four proper variants in Luke, and they do not affect the meaning.

16. Jn. 6:55 *αληθως* || *αληθης* (24.5%) 2554^{2x} [whether an adverb or an adjective, within the context they have the same meaning; I treat the repetition as a single variant]
