

22. Acts 16:9 *την* 2554^c || --- [80%] 2554 [Family 35 is virtually unanimous for the article, so the first hand may have omitted it on his own, to be corrected by someone else; in any case, the meaning is not affected]
23. Acts 18:17 *εμελλεν* || *εμελεν* [14%] 2554^c [Family 35 is divided here; 2554 has a single *lambda* in a space that is too large for it, so I assume the first hand had the double but was erased. Is the verb *μελλω* or *μελω*? If the former, the meaning is not common and could easily give rise to the latter. Render: ‘None of this was a delay to Gallio’; Gallio is in the dative. Gallio presumably considered himself to be a busy man and did not appreciate the interruption; he was not about to allow himself to be further delayed. In 22:16 the same verb has the sense of ‘delay’. Although there is some difference in meaning, the point of the narrative is not altered.]
24. Acts 25:7 *καταβεβηκοτες* || 1 *οι* 2554 [this appears to be a careless mistake on the part of the copyist, but which still makes sense; the meaning is not affected]
25. Acts 28:27 *ιασωμαι* || *ιασομαι* [60%] 2554 [the first hand of 2554 left space to complete the *omega*, so he was aware of the variant; within the context the change in tense does not affect the meaning]

Comment: I consider that the first hand has six proper variants in Acts, one of which was corrected, leaving five. Of the five, four do not affect the meaning. In Acts 12:25, within the context, the two variants are virtually two ways of saying the same thing, the point of the narrative is not affected.

26. Rom. 7:13 *αλλα* || *αλλ* [30%] 2554 [these are alternate spellings of the same word, so this is not a proper variant]
27. Rom. 16:24 *ημων* || *υμων* [82%] 2554^c [if verse 24 was not dictated by Paul, the first person is especially appropriate, coming from Tertius; within the context, the meaning is scarcely affected]

Comment: I consider that the first hand gives us a perfect copy of the archetype for Romans, there being no proper variants. 1 Corinthians also gives us a perfect copy of the archetype.

28. 2 Cor. 8:9 *ημας* || *υμας* [60%] [Family 35 is divided here, but the better representatives, including 2554, are with the first person, that is more inclusive; within the context there is no real difference in meaning]
