

1. $\aleph, 01^1$ – IV, eapr ($2 = 57$ [2 subs],² $1/2 = 5$ [1 sub], $1 = 19$ [3 subs], sing = 9, odd = 8) = 98 variants;
2. 1243 – XI, eap ($2 = 51$, $1/2 = 6$, $1 = 22$ [5 subs], sing = 2, odd = 16) = 97;
3. 1241 – XII, eap ($2 = 47$ [5 subs], $1/2 = 4$, $1 = 17$ [2 subs], sing = 5, odd = 18) = 91;
4. 1881 – XIV, ap ($2 = 42$ [3 subs], $1/2 = 3$ [1 sub], $1 = 16$ [1 sub], sing = 1, odd = 11) = 73;
5. 2495 – XIV, eapr ($2 = 37$ [2 subs], $1/2 = 4$, $1 = 37$ [4 subs], sing = 2, odd = 17) = 97;
6. 2492 – XIII, eap ($2 = 17$ [2 subs], $1/2 = 8$, $1 = 58$ [2 subs], sing = 1, odd = 9) = 93;
7. 2494 – 1316, eapr ($2 = 11$, $1/2 = 4$, $1 = 73$ [2 subs], odd = 10) = 98;
From here on down all the MSS fall within the Byzantine stream.
8. 1874 – X, ap ($2 = 4$, $1/2 = 9$, $1 = 78$ [2 subs], sing = 1, odd = 6) = 98;
9. 1877 – XIV, ap ($2 = 2$, $1/2 = 9$, $1 = 81$ [5 subs], sing = 2, odd = 4) = 98;
10. 2086 – XIV, ap ($2 = 2$, $1/2 = 8$, $1 = 82$ [2 subs], sing = 1, odd = 5) = 98;
11. 1251 – XIII, eap ($2 = 2$, $1/2 = 9$, $1 = 82$ [3 subs], odd = 4) = 97;
12. 1245 – XII, ap ($2 = 3$, $1/2 = 10$ [1 sub], $1 = 83$ [6 subs], odd = 2) = 98;
13. 1240 – XII, eap ($2 = 1$, $1/2 = 7$, $1 = 82$ [7 subs], odd = 4) = 94;
14. 2356 – XIV, eap ($2 = 1$, $1/2 = 9$, $1 = 76$ [2 subs], odd = 4) = 90;
15. 1880 – X, ap ($2 = 2$, $1/2 = 10$, $1 = 84$ [5 subs], odd = 2) = 98;
16. 2502 – 1242, eap ($2 = 1$, $1/2 = 9$, $1 = 73$ [6 subs], odd = 2) = 85;
17. 1242 – XIII, eap ($2 = 1$, $1/2 = 9$, $1 = 86$ [4 subs], odd = 2) = 98;

¹ Of course Aleph is presently located in London, but it became extant in Sinai; to this day the monks at St. Catharine's refer to Tischendorf as 'the thief'.

² 'subs' stands for sub-variants, which are included in the larger number. Where a 'sub' is also a singular I list it only as a singular—each variant is counted only once.
