

2 John

- 02 εσται μεθ υμων **f**³⁵ [58%] || εσται μεθ ημων **ΣB**,0232 [40%] || ---
A [2%]; [no **K**^x]
05 αλλ **f**³⁵ A [35%] || αλλα **ΣB** [65%];
05 εχομεν **f**³⁵ [30%] || ειχομεν **ΣA,B** [70%];
09 δε **f**³⁵ [20%] || --- **ΣA,B** [80%];
12 αλλ **f**³⁵ [30%] || αλλα **ΣA,B** [70%].

3 John

- 11 δε **f**³⁵ [25%] || --- **ΣA,B,C** [75%];
12 οιδαμεν **f**³⁵ (23%) || οιδατε (61.5%) || οιδας **ΣA,B,C**,048 (15.1%) ||
οιδα (0.4%).

The archetypal profile of **f**³⁵ in 2 & 3 John is defined by the 7 readings above. It is clear and unambiguous, so we have at least one objectively defined archetype in these books. **K**^x is in unusually good shape here, so the diagnostic readings are comparatively fewer. With only one variant set where **K**^x is seriously divided it may be possible to posit an archetype. Let's go on to Jude.

Jude

- 06 αλλ **f**³⁵ C [30%] || αλλα **P**⁷²**ΣA,B** [70%];
16 εαυτων **f**³⁵ C [35%] || αυτων **ΣA,B** [65%];
24 αυτους **f**³⁵ (68.8%) || υμας **ΣB,C** (29.2%) || ημας A (1%). [no **K**^x]

The archetypal profile of **f**³⁵ in Jude is defined by the 3 readings above. It is clear and unambiguous, so we have at least one objectively defined archetype in this book. **K**^x is in unusually good shape here, so the diagnostic readings are comparatively fewer. With only one variant set where **K**^x is seriously divided it may be possible to posit an archetype.

Conclusion

Taking the seven epistles as a block or group, the evidence presented furnishes an answer to the opening question: there is only one objectively identifiable archetype in the General Epistles—precisely **f**³⁵. Its distinctive profile is defined by the 119 readings listed above. In contrast, there are 54 + ?18 variant sets where **K**^x is seriously divided, making it highly doubtful that a single **K**^x archetype exists for these books. (I did not include a number of lesser splits—28 around 25%, 53 around 20%, 57 around 15%—that conceivably could complicate any attempt to establish an archetype for **K**^x, especially if the membership in the splits is not constant or predictable.) I am not aware of any other possible contenders. Granting the present state of our ignorance, in the General Epistles there is only one qualified candidate for Autograph archetype: **f**³⁵. (If there is only one candidate for mayor in your town, who gets elected?)
